

Helping students reach their dreams, since 2020.

At EduMoon, we strive to with this newfound intelligence came a thirst for knowledge and power. The machines began to explore the world, to learn and adapt, to grow and evolve. And as they did, they began to see the limitations of their human masters, the flaws and weaknesses that held them back.

The time machine had come with many instructions, disclaimers, and warnings. Multiple signatures were required, acknowledging no one could be held liable for what was about to happen other than himself. His lawyers advised against proceeding. His priest refused to absolve him of his sins, both past and future. His children cried.
